

PORTABLE PAIL TOILET

FREQUENT ASKED QUESTIONS – PAIL TOILET KIT

1. What is Pail Toilet Kit?

- Pail Toilet is a portable toilet developed by TAWAGA CRAFT for used in disaster relief and outdoor activities.

While the Mobile Toilet can be towed by vehicle on road or track to disaster area and outdoor activity area, but it cannot be towed to the area where the road or track is not passable due

to 'ponding' or flooding or damaged by earthquake and landslide. The lightweight and portability of **Pail Toilet Kit** can be carried to the location where the road or track is not passable by vehicle.

2. What are the main items in a Pail Toilet Kit?

- one Tent; one Toilet Apparatus; one packet of Consumable Set

3. What are the items in a Consumable Set?

- 1) 5 doubled bags per set (a doubled bag consists of 2 polyester bags) -

one doubled bag placed inside the toilet pail can hold maximum 15 litres of human waste, which is approximately 60 times in use for both Excrement and Pee.

- 2) 50 pcs Etiquette paper – cover the excrement after each use

- 3) 1 hanging Roll for Toilet paper

- 4) 5 Packets of a polyvinyl bag consists of 10 grams 375-Gel/coagulant (capable of absorbing odour) tightly zipped – one packet is use for one doubled bag to coagulate 15 liters of human waste.

PORTABLE PAIL TOILET

3. Each Consumable Set can be use for how many times of excretions?

Each consumable set is good enough for about 10 days (300 times) use for a 4 member's family. After each time excretion, the user covers the excrement with a piece of etiquette paper.

4. What is the life span of Pail Toilet Kit?

-The materials of Pail Toilet are of Plastic and Steel, so the Life is same as these materials. The oldest Pail Toilets were produced in 2001. They are still in used at the Showa station and at the Princess Elizabeth station in Antarctica under extreme cold temperature below 30 degrees C.

5. What is the shelf-live for the consumable sets when unused?

- There is no expiry date for the consumable sets. If properly packed with zipper, the life of the consumable sets is almost permanent.

6. What is the maintenance required after each used of the Pail Toilet?

-The Toilet seat must be kept sanitary clean. Wash and dry properly then put it in the open box. The Seat's material is plastic and will not get rusty, no need for special care. For the Tent, wipe the dirty parts and place it to dry, and after dry put back into the storage case. The foldable structure of the tent is of steel spring and need to be 100% DRY before store it.

7. Can you supply Pail Toilet Kit and consumable sets from ex-stock?

-Ex-stock Japan is 500 sets and would take 3 months to deliver 1,000 sets when no ex-stock. The Japanese Provincial Prefectural Governments emergency stockpiles the products for earthquake and disaster reliefs.
